

# Correction: All-cause mortality in adults with and without type 2 diabetes: findings from the national health monitoring in Germany

Rockl S, Brinks R, Baumert J, *et al.* All-cause mortality in adults with and without type 2 diabetes: findings from the national health monitoring in Germany. *BMJ Open Diabetes Research and Care* 2017;5:e000451. doi:10.1136/bmjdr-2017-000451.

The following data sharing statement has been added:

The authors confirm that some access restrictions apply to the data underlying the findings. The data set can not be made publicly available because informed consent from study participants did not cover public deposition of data. However, the minimal data set underlying the findings is archived in the 'Health Monitoring' Research Data Centre at the Robert Koch Institute (RKI) and can be accessed by all interested researchers. On-site access to the data set is possible at the Secure Data Center of the RKI's 'Health Monitoring' Research Data Centre. Requests should be submitted to the 'Health Monitoring' Research Data Centre, Robert Koch Institute, Berlin, Germany (e-mail: fdz@rki.de).
