

Correction: Insulin resistance based on postglucose load measure is associated with prevalence and burden of cerebral small vessel disease

Zhou M, Wang S, Jing J, *et al.* Insulin resistance based on postglucose load measure is associated with prevalence and burden of cerebral small vessel disease. *BMJ Open Diabetes Res Care* 2022;10:e002897. doi: 10.1136/bmjdr-2022-002897

This article was previously published with an error.

There is an update in the data mentioned in the *Association of insulin resistance with total SVD burden* section under *RESULTS* and the *Result* section under *Abstract*.

Online supplemental tables S1, S2 and figure S1 have also been updated.
