

Supplementary Table 6. Adverse events reported throughout the study period (N=112)

Adverse event	n (%)
Patients with at least one adverse event	84 (75.0)
Patients with at least one serious adverse event	37 (33.0)
Patients with at least one adverse event leading to treatment discontinuation	10 (8.9)
Patients with adverse events resulting in death	8 (7.1)
Adverse event profile (frequency \geq5%)	
Urinary tract infection	22 (19.6)
Hypoglycaemia	17 (15.2)
Constipation	10 (8.9)
Cardiac failure	10 (8.9)
Pneumonia	9 (8.0)
Bronchitis	7 (6.3)
Acute kidney injury	7 (6.3)
Diarrhoea	6 (5.4)
Left ventricular failure	6 (5.4)
Vitamin D deficiency	6 (5.4)
