Life lost to DM in DK — ESM

Figure ESM 7: Years of life lost to different causes of death at 1 January 2017 by sex, type of diabetes and age.

The dark green areas in panels a and c is equal to the negative years of life lost to cardiovascular disease (CVD) and therefore part of both the CVD and the Other component.

- **a**: Men, type 1 diabetes; **b**: Men, type 2 diabetes; **c**: Women, type 1 diabetes; **d**: Women, type 2 diabetes.

- **Colors**: gray: Respiratory causes; green: Other causes; blue: Cancer; red: CVD.
